7th September 2026

Dear Parents and Carers,

Year 6 Mathematics Baseline Assessment

This week, all Year 6 pupils will complete a mathematics baseline assessment.

The purpose of this assessment is to help teachers establish each child's current level of understanding and identify any areas that may need further teaching, practice or support. The results will be used to inform our planning and ensure that lessons are carefully matched to the needs of the children.

This is not an examination, and children do not need to undertake any special preparation or revision. We will encourage pupils simply to try their best and view the assessment as an opportunity to show what they already know.

We will continue to monitor each child's progress throughout the year and provide appropriate support and challenge.

Thank you for your continued support.

Yours faithfully,

James McCormack
Headteacher
